

SPYDER F3

RIDING HAS EVOLVED.

can-am

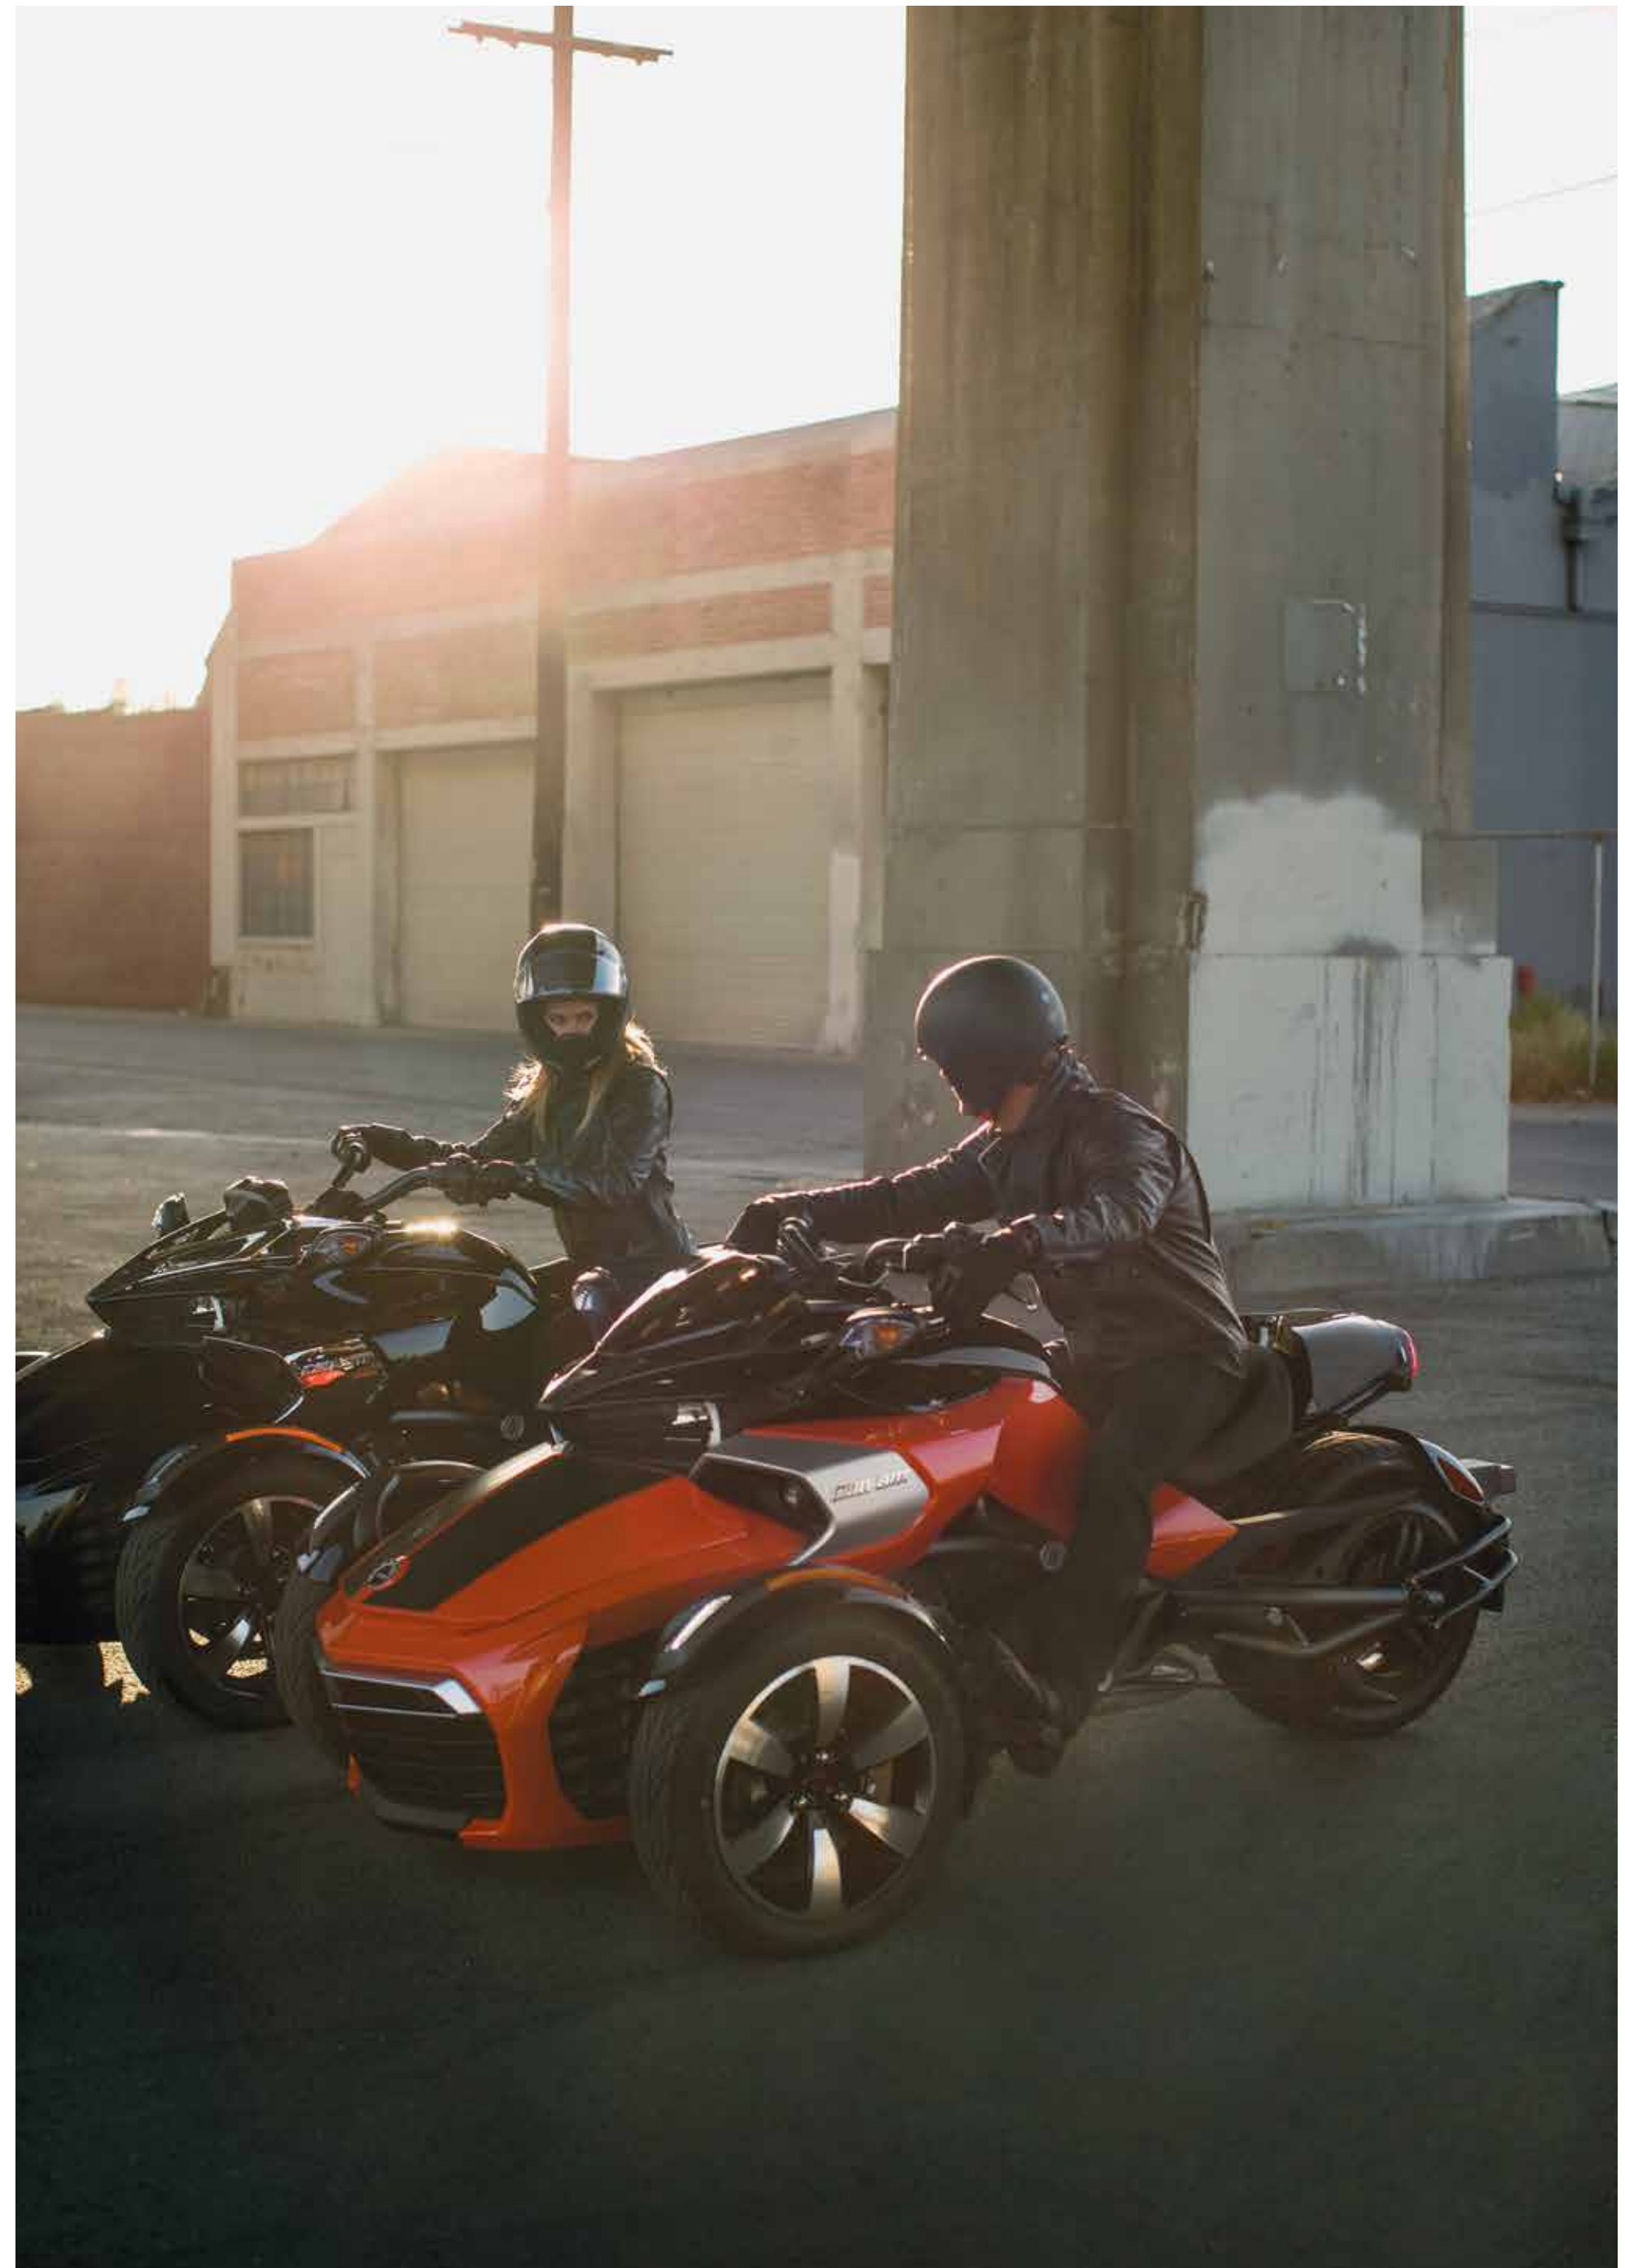

SOUL-STIRRING EXHILARATION.
TOTAL FREEDOM AND CONFIDENCE.
RIDING HAS EVOLVED.

CRUISING RIDING POSITION, CUSTOM FIT AND PERFORMANCE FOR A THRILLING RIDE.

The Can-Am® Spyder® F3 represents a major evolution—in style and substance—in open-air riding. Its authentic cruising riding position, performance features and UFit system make the Spyder F3 an absolute blast to ride.

The Spyder F3 low center of gravity and customized riding position complement its signature Y-frame design and advanced Vehicle Stability System with Stability Control, Traction Control and ABS—all providing precise and confident handling with unprecedented stability. Its Rotax® 1330 ACE™ engine offers impressive power and torque, underlined by a signature exhaust note. It's the perfect choice for riding exhilaration.

THE SPYDER F3 LINE-UP, PERFORMANCE AND MUSCULAR DESIGN.

/// SPYDER F3

The Spyder F3 is all about freedom, confidence and open-road excitement. Thanks to its high-torque Rotax 1330 ACE engine, six-speed manual or semi-automatic transmission, Vehicle Stability System, comfortable seat and tubular frame, UFit customization system, FOX[®] PODIUM[®] shocks, Brembo[®] high-performance brakes, anti-theft system, plus front storage compartment.

/// SPYDER F3-S

Sure to turn heads like nothing else on the road, the Spyder F3-S boasts all the features of the Spyder F3 model, plus unique "S" trim signature, machined Deep-Black high-gloss front wheels, Black suede seat with Red stitching, premium front fenders with LED running lights and cruise control.

TOTAL CONFIDENCE AND FREEDOM COME STANDARD.

The Spyder F3 features our signature Y-frame design and patented Vehicle Stability System, developed in partnership with Bosch,[†] providing precise handling and stability. Add its low center of gravity and cruising riding position and the rider gets unprecedented control to enjoy the freedom of open-air riding.

1. STABILITY CONTROL SYSTEM

The Stability Control System assesses the rider's intended direction and determines the vehicle's appropriate response. The system applies the brakes to the wheels individually and/or reduces excess engine torque until control is regained.

THE CONFIDENCE OF 7 AUTOMOTIVE TECHNOLOGIES, INCLUDING THE MOST ADVANCED VEHICLE STABILITY SYSTEM

2. TRACTION CONTROL SYSTEM

The Traction Control System detects excessive rear-wheel spin (e.g., in slippery conditions) and provides better grip for a more confident ride. It accomplishes this by regulating engine ignition and fuel injection, reducing engine torque.

3. ANTI-LOCK BRAKING SYSTEM (ABS)

ABS monitors each wheel's rotation independently, and can reduce brake pressure to any wheel at risk of locking. Combined with Brembo brakes, it allows for maximum braking performance.

4. SEMI-AUTOMATIC TRANSMISSION

No clutch lever. No foot shifter. The six-speed semi-automatic transmission uses race car-style paddle shifting for quicker, smoother shifts. Manual transmission is also available.

5. REVERSE

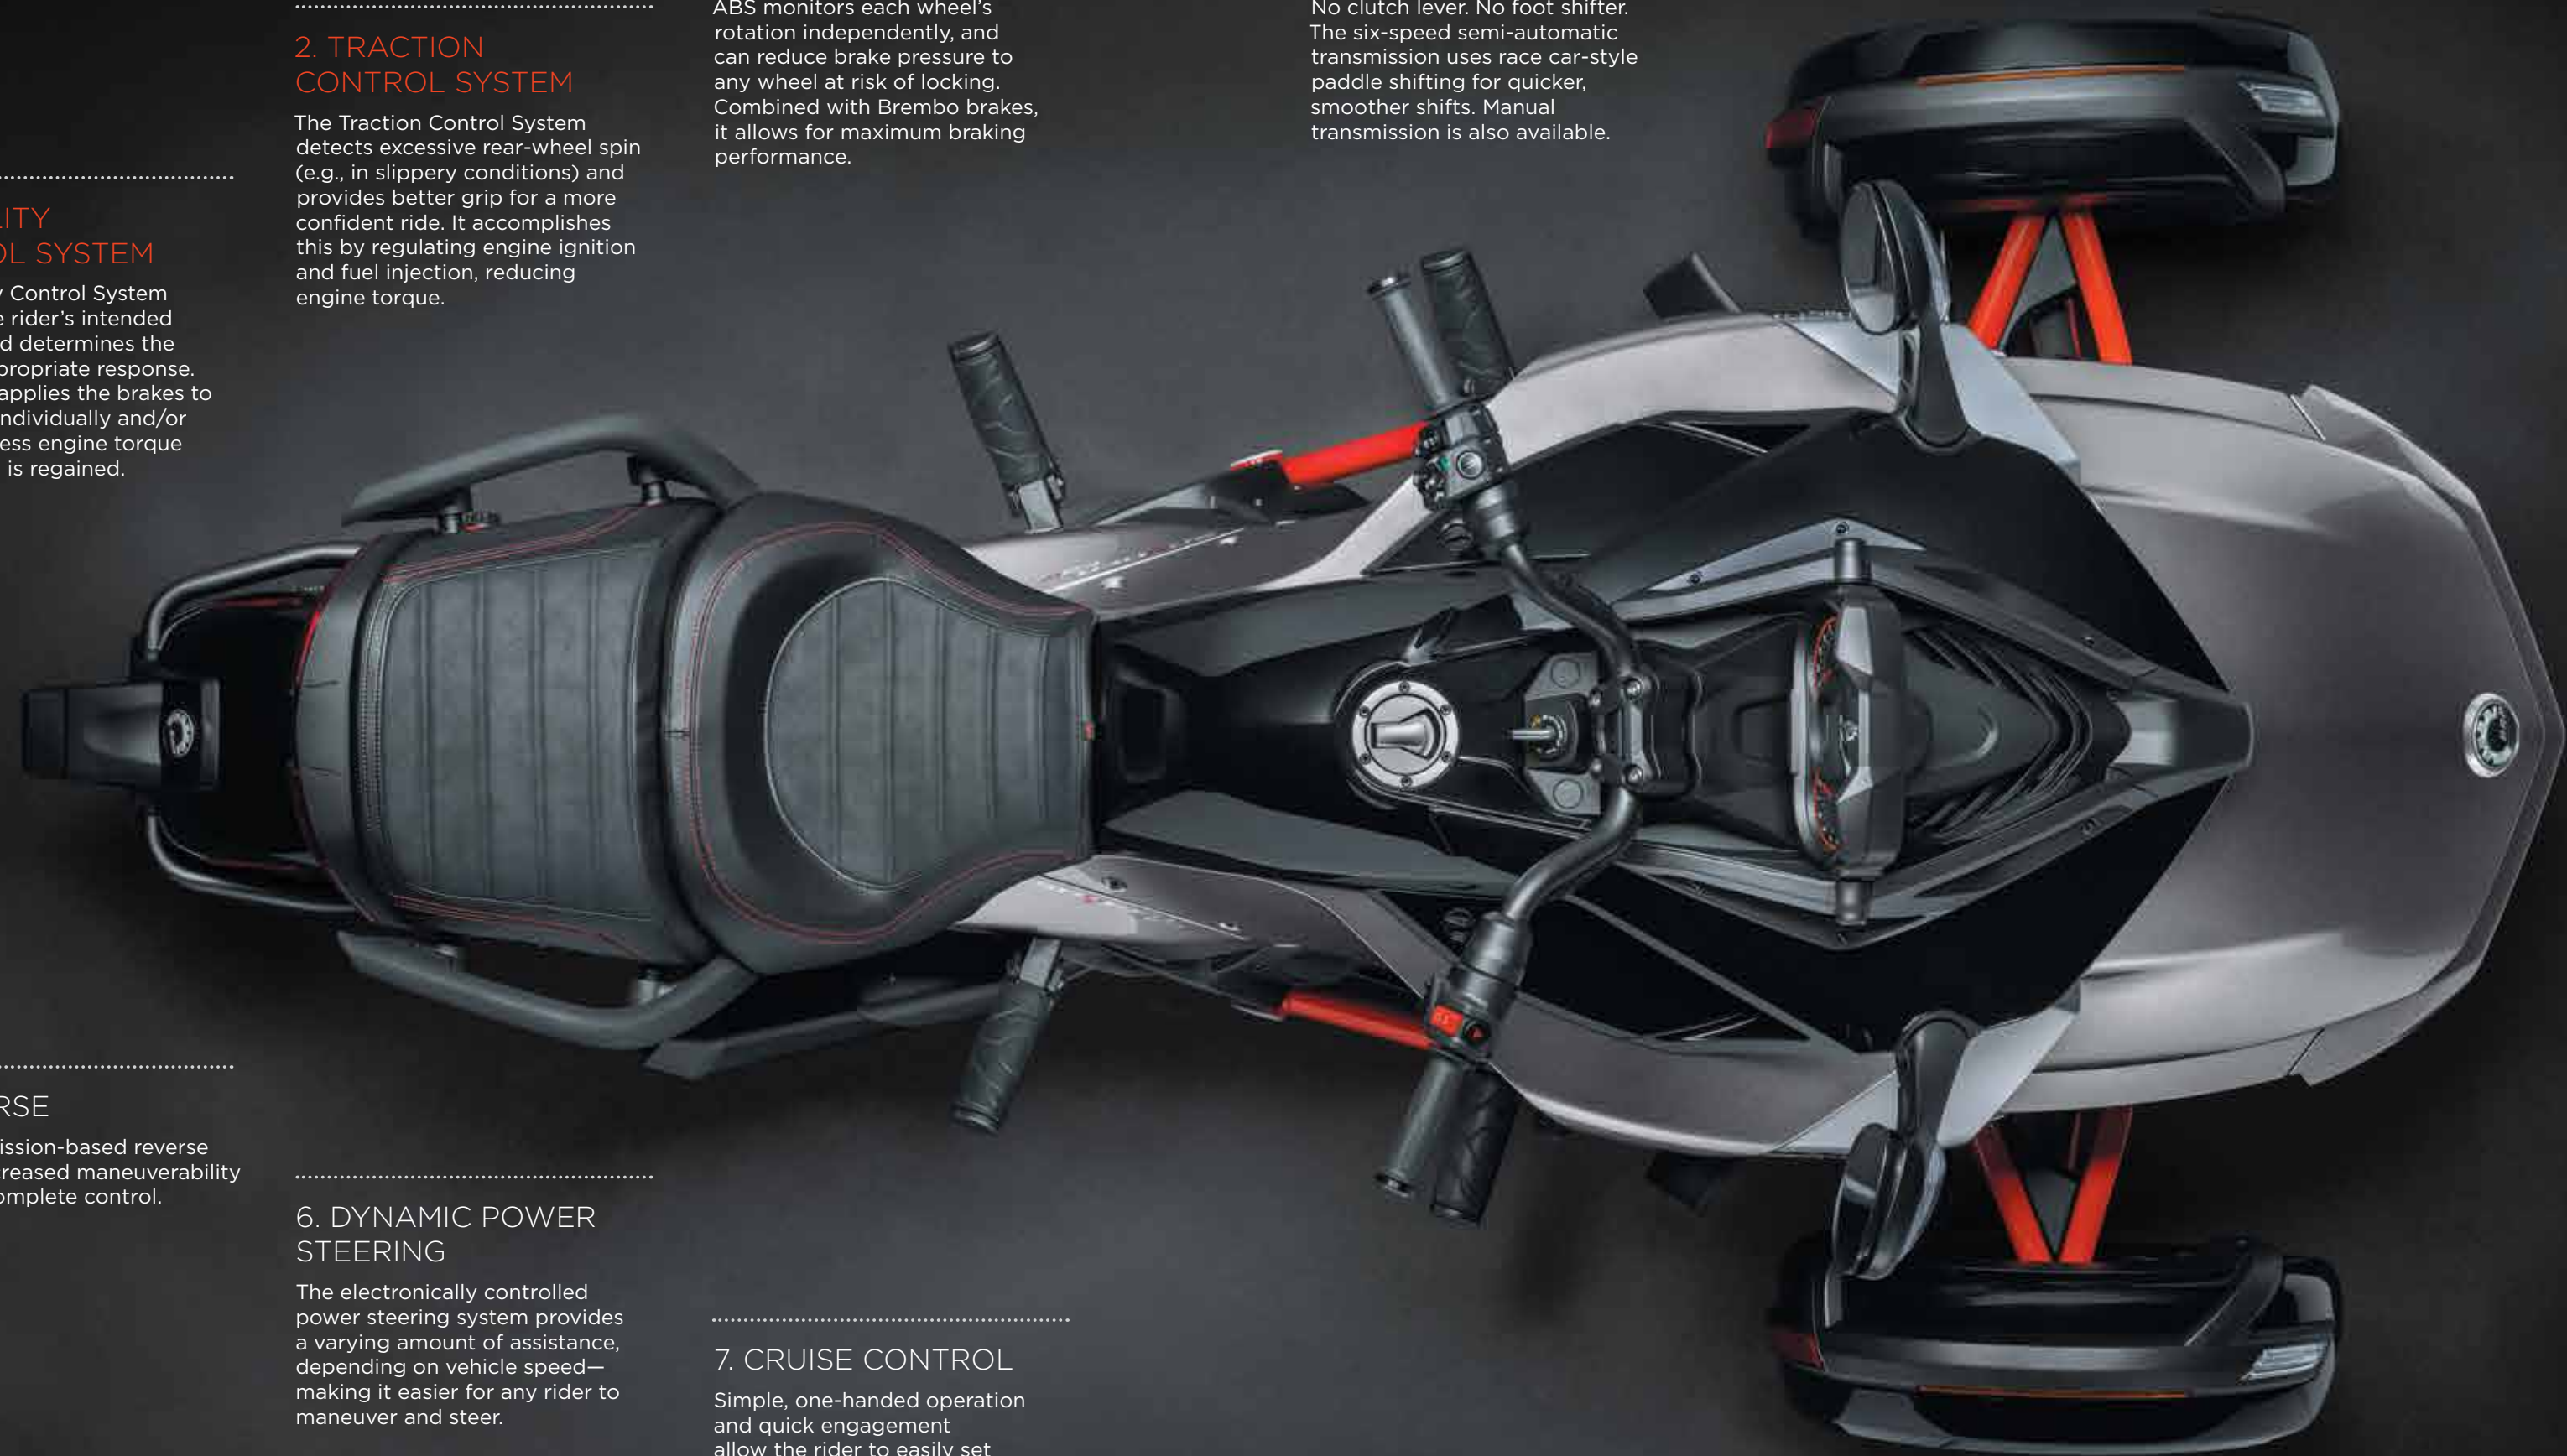

True transmission-based reverse provides increased maneuverability and more complete control.

6. DYNAMIC POWER STEERING

The electronically controlled power steering system provides a varying amount of assistance, depending on vehicle speed—making it easier for any rider to maneuver and steer.

7. CRUISE CONTROL

Simple, one-handed operation and quick engagement allow the rider to easily set a comfortable pace. Available on Spyder F3-S only.

PROVEN
ROTAX 1330
ACE ENGINE

The Rotax 1330 ACE engine is configured with three in-line cylinders, producing high-torque response in every gear. Its in-line configuration also produces a distinctive, throaty exhaust note. Yet it doesn't compromise on fuel economy, either—yielding up to 252 miles at 62 mph (406 km at 100 km/h) on one tank! Plus, its low maintenance requirements mean more riding for lower cost.

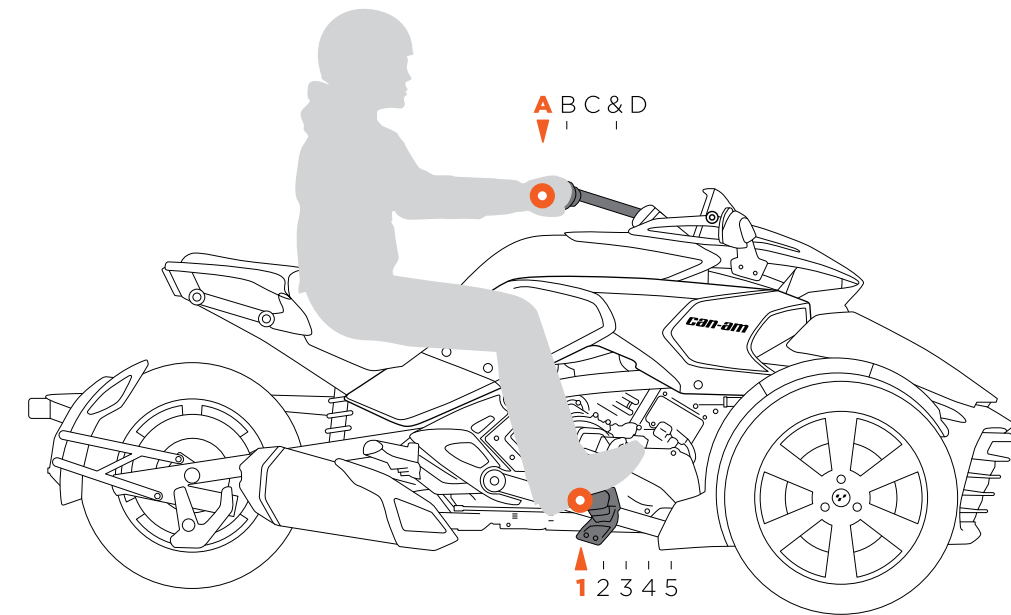

A CUSTOM FIT FOR
EVERY RIDER.

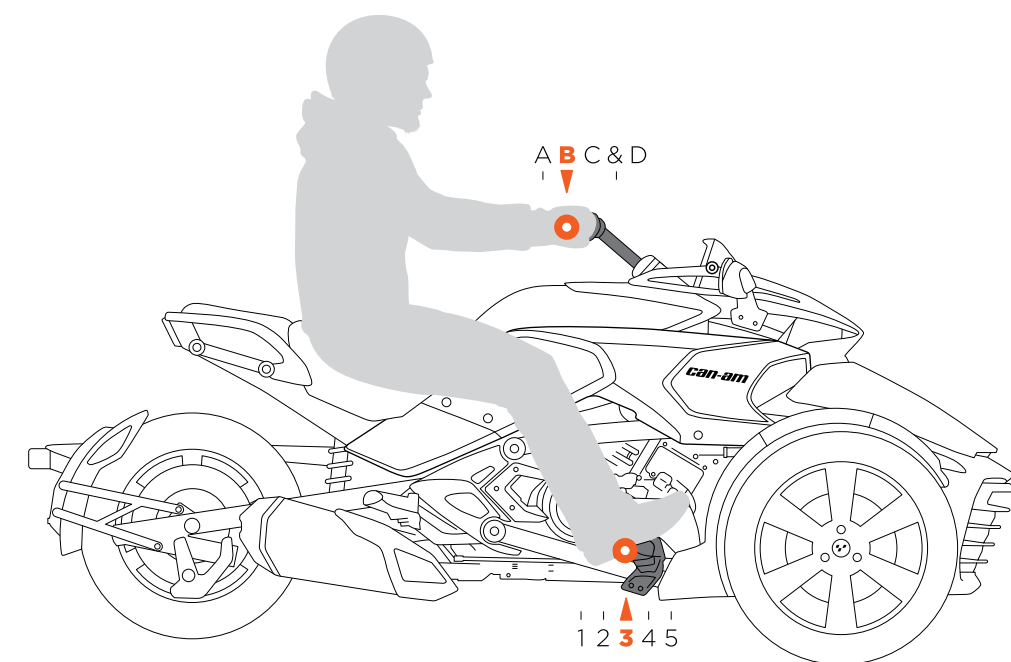

UFIT SYSTEM

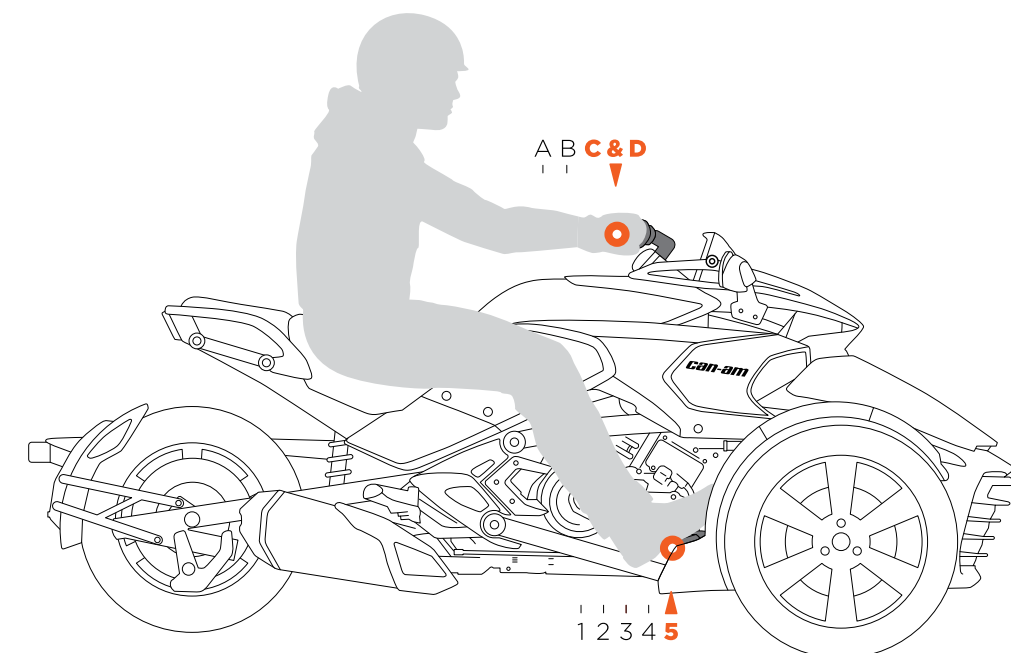

The exclusive Spyder F3 UFit system lets you precisely position the pegs according to your height and choose the handlebar based on your preferred riding style—ensuring a truly customized riding experience.

/// RIDER 5' 0" (1.52 m)

/// RIDER 5' 8" (1.73 m)

/// RIDER 6' 3" (1.90 m)

**EXPERIENCE HOW FAR
RIDING HAS EVOLVED.**

THE FREEDOM OF THE OPEN ROAD IS FOR EVERYONE.

At BRP, we believe that everyone should enjoy the excitement and adventure of riding the open road. And every Can-Am Spyder is uniquely designed to give it to you. We invite you to join us on our ride.

A STRONG COMMUNITY

Facebook, Twitter, Instagram and discussion forums are good ways to stay connected with the large and active Can-Am Spyder owner community. Take advantage of advice and tips and interact with owners as passionate as you. And stay up to date on the latest news by subscribing to our newsletter on canamspyder.com.

CONVENIENT TEST DRIVES

Nothing compares to the feeling of riding a Can-Am Spyder. And it's never been easier to experience—whether at a dealer or at a demo event. Visit canamspyder.com for a calendar of upcoming events.

EASY LICENSING

While license requirements vary by region, simplicity is the rule. Generally, licensing can be completed in one day, using a Can-Am Spyder for the road test. Information on regional license requirements is available at canamspyder.com.

SPYDER F3 SPECS

/ ENGINE /

Type Rotax 1330 ACE in-line 3 cylinders, liquid-cooled with electronic fuel injection and electronic throttle control
 Bore & Stroke 3.31 x 3.14 in. (84 x 80 mm)
 Power 115 hp (86 kW) @ 7250 RPM
