Can-Am® creates the world’s most innovative family of off-road vehicles, one that has taken decades of design, development, and real-world trials to perfect. This is what a tradition of outstanding all-terrain performance looks like.
A Maverick doesn’t take shortcuts, and neither did we. An unquenchable thirst for harnessing earth-shattering power led to our most advanced suspension, chassis, cockpit, and driver-focused design ever. The Maverick X3: built to defy what you thought was possible.
Awesome performance produces an incredible rush of adrenaline. That’s why you ride a Maverick X3 X rs Turbo R with a 172 hp Rotax as its heart. Excitement is what got you in the game—and our accessories let you play according to your rules. Choose from a selection of fully-engineered, performance-driven accessories to get more comfort, more protection, and to enhance the look of your Maverick X3. Like; your choice of doors, windshield, and roof options, a thumping Wet Sounds audio system, and even a Yoshimura slip-on exhaust that’ll turn your tunes up to 11.

- Color options: White, Gold & Can-Am Red

Engine and color choices vary per package. See full specifications at can-amoffroad.com.
Defender XT HD10 shown

Getting the job done is what the Defender is designed to do and does best. Whether it’s working the woods, roaming and ruling the farmland, or leading the hunt. From the toughness of its outperforming engines and all-terrain traction, to its steadfast, class-leading payload and towing capabilities, to the out-and-out intelligence and flexibility of its work and ride-enhancing innovations. Tough. Capable. Clever.

The Defender family of side-by-side vehicles has been engineered to be tough, capable, and clever to fit owners’ needs, but we know it goes beyond that. With never before-seen innovations that maximize interior space, power, handling, and hauling, chances are you’ll probably end up spending a lot of time in its award-winning seats.

Want the headline figures? Defender helps you tow up to 2,000 lb (907.2 kg) or carry a total payload up to 1,500 lb (680 kg). Getting there is easy, and getting it done is, too.

We built the Defender’s interior for when you’re on the move and in between tasks. It’s ready for demanding drives, or even a quick cruise to pick up the morning paper. We’ve got “recreational” and “workhorse” models, each fit for specific tasks, but what makes the Defender family unique is its ability to inspire what’s next, with the driver in full control.

How are you going to get the most out of it?

Whatever you’re into, he’s up for.

Make it look easy.

For life beyond work.

We built the Defender’s interior for when you’re on the move and in between tasks. It’s ready for demanding drives, or even a quick cruise to pick up the morning paper. We’ve got “recreational” and “workhorse” models, each fit for specific tasks, but what makes the Defender family unique is its ability to inspire what’s next, with the driver in full control.

How are you going to get the most out of it?
We admit it, we’re enablers because the official lineup of Can-Am accessories for the Defender family was developed to enable you to excel; do more, go beyond, and forever find new ways to incorporate your vehicle into your lifestyle. From cargo and storage accessories to cab enclosures, bumpers and guards, options for hauling, lighting, plows, and even hunting accessories, there’s a Defender built for it.

Excitement is designed into every Can-Am off-road vehicle. The beauty of our Maverick performance side-by-side is that you can share the acceleration, corner carving, climbing and endless outdoor adventure with a buddy or the whole family.

There’s nothing like the feeling of a beefy, torquey, naturally-aspirated Rotax 1000R V-Twin with the roar of a sport-tuned center-mounted engine backing it up. Working together with a responsive, efficient, and low-maintenance CVT transmission, it’s a pairing designed specifically for quick blasts and thrilling adventures.

There’s a Maverick for almost every terrain imaginable: Sand dunes, desert, trails and deep mud. For the full effect bring along a friend on your test ride.

Outperform your expectations for life off-road—go from fast family tourer to beastly all-terrain vehicle without missing a beat. Our large range of Can-Am accessories were developed to deliver the performance you crave, with the looks, build quality and reliability you’ve come to expect from BRP.

VISIT YOUR DEALER OR CAN-AMOFFROAD.COM TODAY AND CREATE YOUR VERY OWN CAN-AM.
Forests. The wide-open plains. Snow-capped mountains. The Can-Am Commander family of side-by-side was built with the soul of adventure and the tools to handle any terrain. It’s time to let your passion carry you further than ever before.

GET INTO IT.

This is what adventure looks like. Some call this segment of side-by-side “a blend of recreation and utility”, but we’d prefer you think of it as a blend between “work stuff” and “whatever else you’d ever want to do”.

TAKE COMMAND.

We built the Commander’s interior for two purposes: all-day riding comfort and a surprising amount of utility. Up front, we’ve fitted everything you could need, from well-placed controls to supple, body-hugging seats. Out back, its versatile two-level cargo box boasts a 600-lb (272 kg) capacity, tilt-assist dumping, and spacious storage. In between? Surprise us.

EXCLUSIVE AND VERSATILE.

Its versatility makes it a great partner for getting the job done, a great companion on a hunt or a satisfying trail cruise. No matter which specialized package you choose, your Commander will be powerful, capable and comfortable.
Whether your weekends are spent hauling firewood, hunting, blazing a trail through the forest, or exploring your comfort zone, the Commander family can easily be adapted to excel in any conditions, thanks to a wide range of high-quality and innovative accessories.

VISIT YOUR DEALER OR CAN-AMOFFROAD.COM TODAY AND CREATE YOUR VERY OWN CAN-AM.
Every Can-Am off-road vehicle is a perfect combination of industry-leading performance, precision-engineered handling and rider-focused design.
With the Outlander 450 / 570, we’ve taken all the things that make our Outlander ATVs successful and made them more accessible than ever. Because whether you’re hauling, towing, hunting or hitting the trail, you need a machine that more than meets your expectations.

The Outlander 450 / 570 models feature robust front and rear steel rack designs with a 360-lb (163 kg) combined rack capacity. The integrated LED quick-attach accessory system offers convenient and adaptable cargo hauling capabilities.

The exclusive Tri-Mode DPS® features three selectable assist modes – MIN, MED, & MAX. Each provides less assist with more precision at high speed, and more at low speed for easier steering.*

*Available with DPS, XT, Mossy Oak Hunting Edition packages and X mr.

Making the ride comfortable in all conditions and for a wide variety of riders is part of our DNA, which explains why Can-Am’s designs win consistent praise from owners for long-duration use. For the Outlander 450 / 570, a stern by having a seat and controls that respond nicely to the look at hand and a platform that’s truly built to be customised.
We designed an ATV that, above all, can be outfitted to suit your needs. Do you use your trunk box for hunting or to keep gear dry while mudding? Are your heated grips handier for an early morning ride or during winter? In addition to options for windshields, heavy-duty bumpers, or a Yoshimura slip-on exhaust, our LinQ quick-attach system allows for many other everyday accessories to be quickly and easily attached or removed.

There’s a good reason the Outlander is our flagship ATV – it’s a veritable showcase for Can-Am performance, handling, versatility & design. It’s just as capable of taking on a hard day’s work, a long day’s trail ride, a weekend hunt, or a morning of snow plowing.

We’ve developed the Convertible Rack & Storage (CRS) system to provide the flexibility to easily convert from storage to an extra seat in a matter of seconds. Nor is the second seat an afterthought; it’s an hours-long endurance saddle that ensures passengers stay comfortable.

The Outlander is equipped with high-strength racks that feature anti-skid surfaces and raised edges that stabilize cargo during a ride. Multiple edges and holes offer numerous anchor points, and it also comes with our exclusive LinQ system, so you can quickly & easily add or remove ride-specific Can-Am accessories.

Whatever you throw at it, the Outlander 6x6 is more than ready. It’s a true 6x6 drive mated to the most powerful engines in their class, so that almost no load is too heavy, no mud too sticky, and no slope too steep. And its massive reconfigurable Dual-Level™ cargo bed is unique to the industry.
Keep cargo stable and secure during rides with our high-strength rack. Designed to be practical, it features anti-skid surfaces and raised edges that serve as convenient anchor points for tie-downs and bungee cords. And because it’s part of our exclusive LinQ system lineup, you can quickly and easily add or remove many ride-specific Can-Am accessories from trunk boxes to gun scabbards, modular bags, rack extensions, and much more.

We didn’t just wake up and decide to build the most powerful ATV in the industry; it took years of overcoming engineering challenges while working to exceed rider expectations. Whether you choose the standard model or the mud-conquering X mr 1000R, there’s a Renegade that’s ready for the ride.

**BEST-IN-CLASS PERFORMANCE.**

The Renegade’s signature styling screams performance. So it’s good thing we designed and equipped it with technology to back that up — and it’s only take one ride to make you a believer.

**YOU’RE HERE FOR THE POWER.**

You’re probably the type that’s not happy until you’ve cracked the throttle as far as it’ll go, right? The days of suffering through peaky performance and iffy reliability are over with your pick of 48, 78, or 89 horsepower ROTAX V-Twin engines; all possessing tremendous torque, remarkable reliability, and an easy-to-follow maintenance schedule.

**YOUR RIDE. YOUR WAY.**

All Renegades feature a performance riding platform that’s versatile enough to take you on a thrilling Red mud trail, or in the case of the X mr 1000R, capable enough to totally dominate North America’s toughest mud terrain.
Whether you’re into the roar of a Yoshimura slip-on exhaust upgrade, the responsive feel of aggressive terrain-ripping tires, or the scheme-go-anywhere capabilities offered by our Radiator Relocator and Snorkel Kits, all Renegade models can be customized to deliver the thrills you’re seeking—and, with LinQ accessories, add the gear you want to bring along.

We live for the challenge of designing and building off-road machines that push the limits of speed, handling, and durability. But among the most important ones we make are those for youth — they’re the next generation of riders in waiting. Everything about them shows your loved ones are top-of-mind at Can-Am. We’re here to help you share with them the freedom of the great outdoors.

START THEIR PASSION EARLY.
PARENTAL CONTROL. CONFIDENCE FOR KIDS.

Our DS youth and teen ATVs have the ideal mix of performance features modeled off our adult vehicles, and safety features to give parents control and peace of mind.

The DS series include a built-in throttle limiter so parents can regulate their child’s vehicle speed, allowing you to raise the limit as they age, growing both in confidence & maturity.

Pumping the safe, easy thumb-throttle on a fun and responsive Can-Am Off-Road vehicle is an opportunity for kids to explore new horizons within limits you set. Freedom can’t come fast enough for youth — so the DS 70 & DS 90 models’ built-in limiter ensures their safety while they acquire the necessary driving skills.

Freedom is the ability to go anywhere, especially where lesser men & machines don’t dare. Fortunately, a mud-ready, muck-conquering Can-Am can transform the most challenging terrain into an absolute playground.

Your Can-Am vehicle is more than a tool – it’s an important part of your life. So when it came to a camouflage partner, Mossy Oak was the perfect fit. These are the finest off-road vehicles we’ve made, each expertly dressed in official Mossy Oak Break-Up Country camouflage. Equipped with extra standard features, these special edition vehicles have been engineered to perform just as well as they look.

Your hunt is over.
