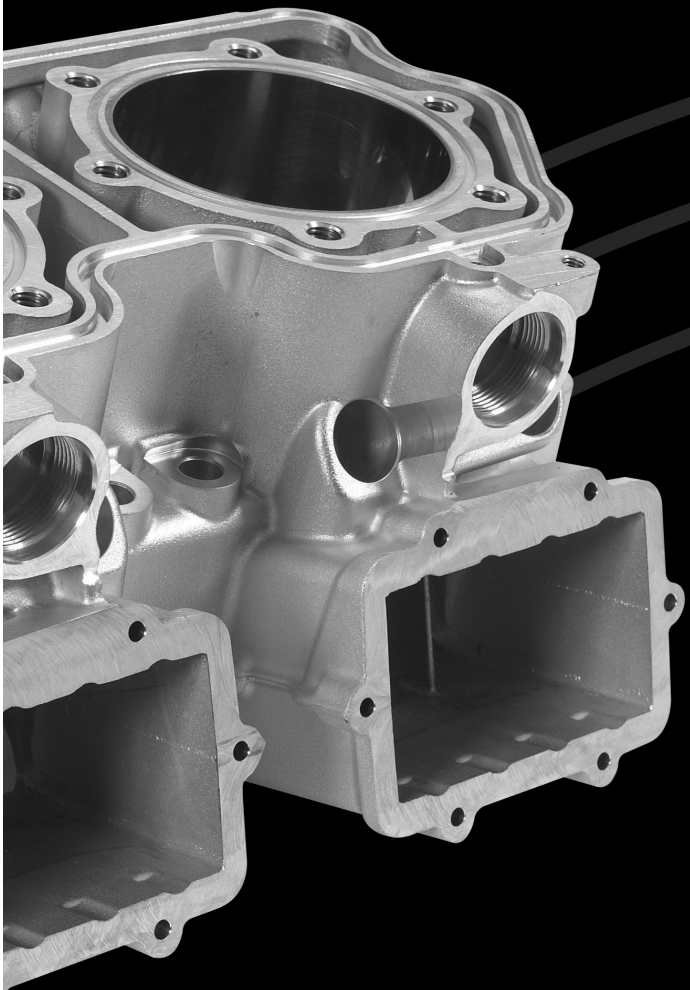
BRP REBUILD CENTER
Built on Tradition. Driven by Excellence.
NUMBER ONE ON THE ENGINE BLOCK

REBUILT PARTS

WE KNOW PARTS LIKE NO ONE ELSE

BRP's commitment to quality and customer satisfaction goes right down to the core. Every rebuilt part that leaves our center meets Rotax's rigorous standards – guaranteed. What's more, we don't compete with our dealer network by selling directly to consumers. Our mission is to help you generate business.



WHERE PARTS COME TO LIFE

Everything about our BRP multi-million dollar remanufacturing centre in Sherbrooke, Quebec is tooled and staffed with one thing in mind – to ensure that Rotax's legendary durability and performance come to life in every BRP-rebuilt short block, crankshaft and cylinder.

HOW WE DO IT?

1. DISASSEMBLY

- Short block components that can be remanufactured to original specs are saved
- All other components are discarded
- Reusable parts are cleaned to remove oil
- Castings are sandblasted
- After further inspection, reusable parts are repainted

2. REMANUFACTURE

- Nikasil cylinders are replated by Rotax® and piston fit is matched
- For steel-sleeved cylinders, sleeves are replaced with new Rotax parts and line-bored
- Then piston fit is matched
- Crankshaft webs are the only component of the crank even considered for reuse as a rebuilt part
- When a reusable component is not available for replacement, new Rotax parts are used
- Only components that meet our highest standards ever make it past this point

3. REASSEMBLY

- Crankshaft wheels are pressed together with all new Rotax bearings, seals and rod assemblies
- They're balanced and blueprinted to within .001"
- Crankshafts are set, crankcases are sealed and torqued to OEM specifications
- All short block assemblies are completed with new Rotax standard size pistons, rings, bearings and gaskets

4. TESTING & WARRANTY

- After reassembly, all short blocks are run through a battery of tests, including pressure testing
- Our quality-tested and -controlled products are backed by a comprehensive one-year limited warranty that covers parts and labor
- Replacement rebuilt crankshafts and cylinders also have a one-year parts only warranty

REGULAR ORDER AND CORE RETURN PROCEDURE

TO DO	WHAT TO DO
Place an order	Simply use BOSSWeb™.
Return a core without a Rebuild Credit Form*	• Identify each core as much as possible. Tag them and indicate the engine type as reference. • Fill out and enclose a copy of the enclosed "Universal" BRP Rebuild Center Core Credit Request Form with the cores in your shipping box (for additional forms go to BOSSWeb.)
Return a core with a Rebuild Credit Form	• Return the white copy of the Rebuild Credit Form, included with every rebuilt part shipped by the Rebuild Center, along with the core. • Cores received with the yellow copy or with a photocopy will be considered as core returns without the Rebuild Credit Form. The white copy is, therefore, required in order to receive the proper credit amount.

*Go on BOSSWeb/(comcenter/rebuild program) for full details

MAKE SURE YOUR CORE RETURNS ARE FREIGHT PREPAID
